

Rajan Mistry

Software Engineer | Pune, India

rajanamistry@gmail.com | linkedin.com/in/rajan-a-mistry | gitlab.com/rajanamistry | github.com/RajanAMistry

Software engineer with 13+ years of experience building accessible, reliable enterprise products. Experienced in product architecture, frontend quality, mentoring, and cross-functional delivery across Product, Design, UX, and Backend.

SELECTED IMPACT

Product ownership: Frontend DRI for key GitLab Continuous Delivery and Work Items experiences, including deployment visibility, saved views, filtering, hierarchy, and bulk editing.

Quality: Raised Work Items list feature-test coverage to approximately 90% while addressing flaky tests, accessibility, and regression prevention.

Platform thinking: Built a scalable activity stream and a reusable video framework adopted across multiple Saba Cloud modules.

EXPERIENCE

GitLab

Frontend Engineer
Jan 2023 - Present
Remote | Pune, India

- Lead frontend delivery for key Continuous Delivery and Work Items experiences.
- Partner across Product, Design, UX, and Backend, including API and schema work required for end-to-end delivery.
- Improve reliability, accessibility, test coverage, and contributor experience through root-cause fixes, coaching, and documentation.

Cornerstone OnDemand

Principal Software Engineer
Apr 2021 - Dec 2022
Remote | Pune, India

- Led frontend and backend work across Social, Content, and Assessment modules in Saba Cloud.
- Delivered SCORM, Tin Can, AICC, and xAPI support; redesigned Workspace and the Assessment player.
- Mentored engineers and published style guides and coding standards for accessible, consistent product delivery.

Saba Software

Software Engineer to Module Lead
Sep 2014 - Apr 2021
Pune, India

- Progressed through three roles while leading feature delivery and mentoring engineers in the Social module.
- Redesigned the Angular activity stream as a performant foundation that other teams could extend.
- Introduced reusable video integrations, accessible components, Open Graph support, and deliberate technical-debt planning.

Elitecore Technologies

Junior Software Engineer
Jul 2013 - Sep 2014
Ahmedabad, India

- Built responsive telecom products and APIs for clients including MenaTel, SITi Cable, and du.
- Delivered scalable solutions, unit tests, and release support using Java, PL/SQL, JSP, Struts, HTML, CSS, and Bootstrap.
